Logo design competition Having been on board with a wide variety of companies and businesses in the world, we've had the pleasure of knowing a lot of businesses that have their own logos. Even though our website is the only place on the internet where people can go to see some of the best and weirdest logos, we wanted to share some of our favourite logos from other companies. We've set up a logo design competition. We're asking you to create a logo for our website. The prize is a six-month business consultancy with a brand identity design package. So get creative. What's it about? With the changes happening in the world, customers and the media are growing increasingly busy and fast paced, with many more questions and opinions floating around than ever before. It's also been reported that the amount of time a consumer spends on average in a checkout line or waiting in a coffee shop has actually reduced by 24 per cent. In such a world, having a strong online presence is a way to quickly communicate with consumers on your company's behalf. Having a strong brand identity and identity design package can ensure that your brand gets seen, and that your message is understood. What are we looking for? The logo design must represent the brand in some way. We're not looking for a logo that looks pretty, because then it would be like the rest of the stuff out there. We're looking for a logo that is sharp and memorable, that represents your brand well, whether or not it
